---

PROFESSIONAL SUMMARY:

- 5+ years of full stack development expertise.
- Proficient in Java, C#, JavaScript, React JS, HTML5, CSS3, and SQL.
- Skilled in web UI development following W3C standards.
- Experienced in creating style guides and standards for applications.
- Responsive web design specialist using React JS.
- Extensive knowledge of SDLC and web technologies.
- Expert in debugging and troubleshooting code.
- Strong unit testing skills with tools like JASMINE, Jest, and Junit.
- AJAX for performance-enhancing interactive web apps.
- Agile development with daily SCRUM involvement.
- Security implementation using Spring Security and .NET Identity.
- Familiar with cloud-based databases like Amazon RDS and Azure SQL.
- Proficient in Java, OOP, ORM tools like Hibernate and Entity Framework.
- Skilled in database design, complex SQL queries, and optimization.
- RESTful API development with Java, Node.js, and .NET.
- Strong grasp of design patterns (MVC, Singleton, Factory).
- Version control with Git and collaboration in distributed teams.
- Containerization and microservices experience with Docker.
- Integration of third-party APIs into web apps.
- Agile methodology proficiency (Scrum, Kanban).
- Cloud platform deployment (AWS, Azure, Google Cloud).
- Solid foundation in computer science fundamentals.
- Modern UI development with React and similar frameworks.
- Success in fast-paced environments.

TECHNICAL SKILLS:

Web Technologies and Programming Languages	Java, C#, Javascript, Typescript, C, Python, HTML, HTML5, XML, CSS, CSS3, JQuery, AJAX, JSP, XML, SASS
Libraries and frameworks	Node.js, React JS, Angular JS 6/8, Express.js, GraphQl Spring MVC, .NET
Database Skills	MySQL, SQL server, Oracle, MongoDB
Cloud technologies	AWS
Version control	Git, GitLab, GitHub
Web Application Servers	Apache Tomcat, Microsoft IIS
Operating System	Windows 2010/2011, MAC OS, Linux
IDE & Tools	Intellij IDEA Enterprise edition, Visual studio , **Docker, Postman, Figma**

PROFESSIONAL EXPERIENCE:

DEQ   **Feb 2020 – Current**
Full Stack Web Developer

Responsibilities:

- Collaborated with stakeholders to analyze requirements, ensuring alignment with project goals.
- Designed integrated solutions for a seamless user experience using Java, Spring, Hibernate, and Maven.
- Developed responsive web pages with HTML5, CSS3, and JavaScript, enhancing visual appeal.
- Leveraged Bootstrap for consistent and visually appealing UI across applications.
- Utilized React JS for dynamic front-end components and Redux for efficient state management.
- Implemented Node.js to create RESTful APIs and handled server-side operations.
- Enhanced data efficiency with GraphQL and managed databases using PostgreSQL (PSQL).
- Improved code quality and maintainability with TypeScript.
- Deployed applications on AWS, emphasizing scalability, reliability, and security.
- Optimized application performance, SEO, and security through best practices.
- Worked closely with UI/UX designers to bring designs to life.
- Contributed to full-stack development using Java.
- Conducted unit and integration testing for code quality assurance.
- Stayed updated with industry trends and emerging technologies to enhance development practices.

Environment: Java, Java Script, C#, Node.js, TypeScript, Bootstrap, Jasmine, Agile methodology, Jenkins, React.js, Redux, Webpack, GraphQL, .NET , MAVEN, Spring MVC, Hibernate, XML, MyBaits migration, PSQL, Git, GitLab, Git-Hub

CVS   **Jan 2018 – FEB 2020**
Full Stack Web developer

Responsibilities:

- Collaborated within a development team, focusing on debugging and troubleshooting code issues.
- Played a vital role in identifying and resolving front-end styling discrepancies, enhancing the overall user experience.
- Actively participated in meetings, providing valuable insights and contributing to project discussions.
- Assisted in code reviews, gaining valuable experience in code quality assessment and improvement.
- Worked closely with senior developers to understand and learn best practices in software development.
- Gained hands-on experience in identifying and fixing application bugs and glitches.
- Contributed to maintenance tasks, ensuring the application's stability and reliability.
- Engaged in continuous learning and skill development, building a solid foundation as a junior developer.
- Supported the team in various development-related tasks, expanding expertise in full stack development.

Environment: HTML, CSS, JavaScript, C#, .NET , ASP.NET, React.js, MySQL, PL SQL, Bootstrap,   JQuery, Angular, Typescript, Node.js, Java

Education: BSc
